RISK CONTROL

Our system controls risk by establishing conditions for crypto arbitration, which include the trading amount, the minimum balance value in coins, and the minimum and maximum profitability percentage.

Crucially, our arbitrage bot will not carry out a transaction if the possible operation does not fulfil the predetermined criteria and does not provide the system with the intended profit.

TWO LEVEL COMPENSATION ON REFERRAL

The goal of this is to keep the platform user-focused and sustainable. Referral programs can increase user numbers and foster growth, but they can also result in fraud, abuse, or a financial imbalance if large bonuses are given out without considering the platform's stability.

Furthermore, adjusting referral bonuses guarantees long-term growth and sustainability which is our main objective.

COMPENSATION PLAN

Level 1: 10%

Level 2: 4%

WITHDRAWAL

Capital Withdrawal (Total Invested) takes 48 hours to settle.

Withdrawals of Earnings (Wallet) occur once every 24 hours.
